Werner Fire Fighter Rhino 500

Compact Power • Rapid Response • Reliable Protection

The Werner Fire Fighter Rhino 500 is a powerful, mobile firefighting and wash-down solution designed for quick deployment and reliable performance. Built for emergency response, fire control, and utility cleaning, this self-contained unit is compact enough for ¾-ton or 1-ton bakkies, yet tough enough for industrial and rural firefighting operations.
Durable. Efficient.
100 % South African Built.

Tank

Tank Volume (L): ± 500

Payload (Kg): ± 500

- UV-protected, heavy-duty polyethylene
- Optional Upgrade: 1 000 L tank (for trailer-mounted units)
- The tank's extra-heavy-duty construction ensures long life and resistance to UV degradation, corrosion, and impact — ideal for harsh South African conditions.

Frame

- Fully welded, all-steel protection frame for strength and safety
- Designed to fit ¾-ton and 1-ton bakkies or optional Werner trailer mount
- Includes:
  - HP jetting gun with adjustable jetting nozzle (short or long barrel option)
  - Heavy-duty steel hose reel with reinforced swivel joint
  - 30 m reinforced HP rubber hose, flame-retardant and abrasion-resistant
  - Glycerin-filled 65 mm dial gauge for long-term pressure monitoring
- Compact, transportable, and easy to install — the Rhino 500 is built for flexibility in the field.

High Pressure System

- Werner industrial self-priming plunger pump (positive displacement type)
- Flow rate: 21 L/min @ 200 bar (fully adjustable)
- Safety valve to protect both pump and engine under pressure surges
- Precision pressure control with heavy-duty regulation assembly
- This high-pressure system ensures consistent water delivery and reliable suction, even in demanding firefighting or cleaning applications.

Optional Configuration

- Werner Fire Fighter Trailer Mount for enhanced mobility
- Custom jetting gun configurations (fan or straight stream)
- Additional hose length
- Additional reel system (can be operated simultaneously)
- Diesel engine optional
- Petrol engine (Honda or Robin)

WERNER

EQUIPMENT & ACCESSORIES

Nozzles & Hoses

Werner Pumps supplies a full range of high-performance accessories designed to complement the Rhino 500 Skid Unit and enhance overall efficiency.

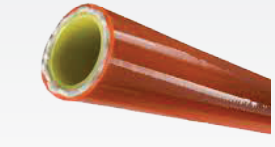

Product Range Includes:

- ENZ Swiss-engineered jetting nozzles for precision cleaning
- Rotary and fixed nozzles for varying pipe diameters
- Specialised cutter and root removal heads
- Vacuum hoses, suction lines, and discharge couplings
- High-pressure hoses with reinforced protection layers
- Quick-release couplings and fittings

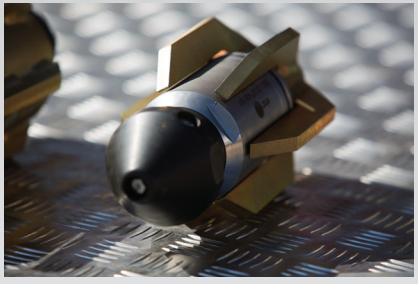

All accessories are rigorously tested for durability, safety, and compatibility with Werner high-pressure systems.

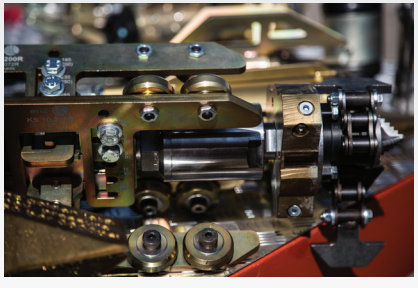

Get in touch

For high-performance firefighting and high-pressure jetting systems, contact Werner South Africa Pumps & Equipment (Pty) Ltd today. Experience unmatched build quality, technical support, and true South African engineering excellence.
