Werner Industrial Pressure Washer KD719.1000

Established 88

Technical Specifications and Equipment

Ultra-High Pressure • Professional Power • Industrial Durability

The Werner KD719P25 Industrial Pressure Washer delivers unmatched ultra-high-pressure cleaning capability for demanding industrial, construction, and maintenance applications.
Powered by a 153 kW diesel engine and mounted on a high-speed, roadworthy trailer, it provides reliable performance, maximum mobility, and precision control wherever heavy-duty cleaning is required.
Tough. Efficient.
Proudly 100 % South African Built.

Frame

- High-speed road-certified trailer for ease of transport and manoeuvrability

High Pressure System

- Werner KD719P25 high-pressure jetting pump
- Flow rate: 54 L/min @ 1 000 bar (fully adjustable)
- Pneumatic pressure regulator with remote control
- Fine mesh in-line water inlet filter
- Booster pump for stable inlet pressure
- Adjustable zero-pressure release system for total pressure safety
- Includes rev counter Ø80 mm and Ø100 mm, 1 500 bar pressure gauge

Control Panel

- Right-hand-mounted for operator convenience
- Emergency stop button for immediate shutdown
- Speed control cable for engine throttle management

Tank

- Stainless-steel tank including fittings and booster pump (operates independently if inlet pressure < 2 bar)
- 2-inch inline filter (360 micron / 50 mesh)
- Dual 10 bar gauges for monitoring filter cleanliness

Engine

- Water-cooled diesel engine, ≈ 150 kW, 1,500 rpm
- Electric key start
- 100 litre fuel tank
- Oil pressure and battery charge indicators
- Automatic safety cut-outs: high temperature / low oil

Pressure Regulator

- MSUV10/1200 pneumatic safety valve
- Adjustable working pressure from 0 – 1,150 bar

Applications

- Industrial and municipal cleaning
- Pressure washing and surface restoration
- Water sandblasting
- Drain and pipeline jetting
- Rubber removal and runway maintenance

WERNER

Technical Specifications and Equipment

Additional Accessories (If Required) Additional cost)

Manual Storage Hose Reel

- Heavy-duty construction
- 120 m × 25 mm ID capacity
- Manual directional drive control

Extra Hose (On Request)

- 30 meter long, 1/2” rubber hose with M24 fittings
- 50 meter long, 1/2” rubber hose with M24 fittings

Nozzles (On Request)

- Rotary (spinning) nozzles – various sizes available
- Pipe-cleaning nozzles for internal jetting
- Surface-cleaning nozzles (straight or fan jet)

Safety Clothing (On Request)

- Safety boots for 1 500 bar operation
- Protective clothing and aprons (1 500 bar rated)
- Safety gloves and helmet with shield (1 500 bar rated)

EQUIPMENT & ACCESSORIES

Nozzles & Hoses

Werner Pumps supplies a full range of high-performance accessories designed to complement the Industrial Pressure Washer KD719.1000 Trailer Unit and enhance overall efficiency.

Product Range Includes:

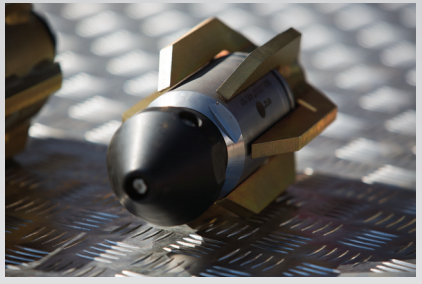

- ENZ Swiss-engineered jetting nozzles for precision cleaning
- Rotary and fixed nozzles for varying pipe diameters
- Specialised cutter and root removal heads
- Vacuum hoses, suction lines, and discharge couplings
- High-pressure hoses with reinforced protection layers
- Quick-release couplings and fittings

All accessories are rigorously tested for durability, safety, and compatibility with Werner high-pressure systems.
